

La Saponaria Multilingual Product Data Extraction

English | Italian | Spanish

ROLE

Web Scraping and ETL Specialist

Project overview

A Python workflow that collected multilingual product information from La Saponaria websites and organized the results into a consistent Excel workbook for review and reuse.

Key deliverable

A structured workbook containing product descriptions, usage information, ingredients, packaging details, references, source URLs and language labels.

 Full description
×

The best-selling Pure Active and an undisputed hydration champion!

This anti-aging organic certified face serum features 4 different molecular weights that work synergistically to improve the skin's appearance, specifically:

- **Low and very low molecular weights** allow the active ingredient to penetrate deeper, providing a plumping and wrinkle-lifting effect.

Hyaluronic Acid - Multiple Molecular Weights

Extracted Data Structure

The same field structure was applied across the English, Italian and Spanish worksheets.

No.	Extracted field	Information captured
1	Reference	Unique product reference or catalogue code
2	Product Name	Product title as displayed on the source page
3	Short Description	Brief introductory product description
4	Full Description	Complete product information and benefits
5	How to Use	Application or usage instructions
6	Who It Is Indicated For	Intended user, skin type or product suitability
7	Ingredients	Complete ingredient list
8	Green Packaging	Sustainability and packaging information
9	Active Ingredients	Highlighted active components
10	Main Ingredients	Main ingredients with titles and explanatory subtitles
11	URL	Direct link to the source product page
12	Language	English, Italian or Spanish label

Example record: VA002M050 | Lift and Defence Face Cream | English

Excel Workbook Output

Reference	Product Name	Short Description	Full Description	How to Use	Who It Is Indicated For	Ingredients
AI001M030	Acido ialuronico - multiplo peso molecolare	Attivo puro - Siero viso concentrato biologico rimpolpante e idratante	L'Attivo Puro best seller campione indiscusso d'idratazione! Siero viso anti-age certificato biologico caratterizzato da 4 diversi pesi molecolari che agiscono in sinergia per migliorare l'aspetto della pelle, in particolare: - basso e bassissimo peso molecolare consentono all'attivo di penetrare più in profondità con un effetto rimpolpante e di sollevamento delle rughe - il medio e l'alto peso molecolare agiscono sulla superficie cutanea e migliorano immediatamente idratazione, elasticità e compattezza della pelle. Grazie alla sua texture leggera e alla formula altamente dermocompatibile, questo siero viso è adatto a tutte le tipologie di pelle, incluse quelle più sensibili. Acido ialuronico di origine naturale ottenuto per biofermentazione - Texture oil free - Senza profumo aggiunto Benefici - +25% di idratazione in 15 minuti* - Fino a 24 ore di pelle più idratata, elastica e compatta* Cosa c'è di nuovo? - Certificato biologico Cosmos - Efficacia clinicamente testata - Testato dermatologicamente su pelle sensibile - Formula	Puoi utilizzare l'acido ialuronico mattina e sera, sul viso deterso, in due modi: 1) In purezza: aiutandoti con la pipetta, applica 3 o 4 gocce di prodotto sul viso. Massaggia fino a completo assorbimento e prosegui con la tua skincare routine. 2) Come booster: aggiungi 1 o 2 gocce di prodotto alla tua crema viso o siero preferiti. Renderà la texture della crema molto più leggera al tatto e di facile assorbimento, aumentandone l'efficacia!	L'Acido ialuronico è il siero viso anti-rughe ideale per chi desidera intensificare l'idratazione cutanea e minimizzare i segni dell'invecchiamento. Particolarmente apprezzato dalle pelli mature, è adatto anche alle pelli secche e disidratate che necessitano di un apporto extra di nutrimento durante la giornata.	Aqua, Rosa Damascena Flower Water *, Propanediol, Sodium Hyaluronate, Meli Officinalis Leaf Water *, Citric Acid, Sod Dehydroacetate, Sodium Phytate, Sodiu Benzoate, Benzyl Alcohol, Potassium Sc Geraniol, Linalool, Citronellol (*ingredie agricoltura biologica 21%.Ingredienti di origine naturale 98%).
AP004M030	Vitamina C Stabile	Attivo puro - Siero viso Vitamina C Illuminante e	L'Attivo Puro che schiarisce le macchie e rende radiosa la pelle!	Puoi utilizzarlo mattina e sera sul viso deterso in due modi:	Il siero viso alla Vitamina C è ideale per tutte le pelli che si vedono spente, che desiderano un	Aqua, Aloe Barbadensis Leaf Juice *, Asa Glucoside, Pentylene Glycol, Propanediol

Workbook structure

ENGLISH

ITALIAN

SPANISH

Output file: La_Saponaria_Product_Data.xlsx

Challenges Solved and Validation

The extraction logic was adapted to the website structure and checked across all three languages.

CHALLENGES SOLVED	VALIDATION PERFORMED
Multilingual layouts Mapped different English, Italian and Spanish labels to one consistent output structure. Expandable content Targeted Elementor accordion sections containing descriptions, usage and packaging information. Ingredient carousels Captured active ingredients displayed inside interactive carousel elements. Split ingredient text Combined ingredient titles and subtitles into complete, readable entries. Optional sections Handled missing or differently arranged sections without shifting values into the wrong columns.	✓ Tested representative product pages in English, Italian and Spanish. ✓ Compared extracted values with the information displayed on the original pages. ✓ Confirmed that product references and source URLs were assigned to the correct records. ✓ Checked that language labels matched the relevant website and worksheet. ✓ Verified accordion content, active ingredients and main ingredient extraction. ✓ Reviewed the workbook for missing columns, duplicated records and misplaced values. ✓ Confirmed that the final workbook opened correctly and retained a consistent structure.

Validation result

English: Passed | Italian: Passed | Spanish: Passed

Services and Contact Information

Available for freelance, contract and remote data projects.

I help businesses, researchers and organizations collect, clean and organize information from websites, PDFs and spreadsheets. I deliver structured, traceable and carefully validated data that is ready for analysis, reporting or migration.

Services

✓ Web scraping and data extraction	✓ E-commerce product data collection
✓ PDF to Excel conversion	✓ Data cleaning and deduplication
✓ Web research and data validation	✓ Excel and Google Sheets automation
✓ ETL and data preparation	✓ Custom Python processing scripts

Tools

Python • BeautifulSoup • Requests • Pandas • Selenium • Microsoft Excel • Google Sheets
